

Lewiston — 6.4 Miles

11B Lewiston Riverwalk (0.5 Miles, Completed). As highlighted on trailink, the Lewiston Riverwalk passes through the old mill district of the Twin Cities of Auburn and Lewiston. The paved and gravel path offers many scenic views of the Androscoggin River, the powerhouse that fueled the historic mill industry.

12 Downtown Lewiston to Lisbon Border (5.9 Miles, Negotiations in Process). This segment is located on the inactive Lewiston Lower Rail corridor. It has been envisioned as a rail trail for 25 years. The corridor is owned by CSX, and the Lewiston-Auburn Railroad Company (owned by the cities of Lewiston and Auburn) is discussing with CSX the possibilities for using the corridor as a trail. A preliminary engineering assessment has been conducted by Sebago Technics.
