

Yarmouth — 6.0 Miles

Yarmouth Segments

6

Cumberland Border to North Yarmouth Border (3.3 Miles, RUAC Recommended). This Yarmouth segment is on the unused, state-owned Berlin Subdivision rail corridor. The segment is also where the Casco Bay Trail forks left (toward Lewiston-Auburn) or right (toward Brunswick) to create the loop. A recent MaineDOT Rail Use Advisory Committee recommended interim trail use on this segment. Final trail authorization is pending legislative approval.

21

Beth Condon Pathway Extension (1.0 Miles, Funded). This segment runs from the Freeport border, across the Cousins River bridge, under Route 295 at exit 17 to the current end-point of the Beth Condon Pathway. The project is designed, funded, and part of the current MaineDOT work plan.

22

Beth Condon Pathway (1.7 Miles, Completed). This existing pathway runs through Royal River Park and downtown Yarmouth and completes the Casco Bay Trail loop. The pathway is named in honor of a Yarmouth student who was struck by a drunk driver while walking along US Route 1.

Beth Condon Pathway
